C. Raymond Davis & Sons is thrilled to announce that all four projects entered in the Associated Builders and Contractors Eastern Pennsylvania Chapter's 2023 Excellence in Construction Awards competition received first place in their categories.

Private Residence, Princeton | Best Residential Project \$1-5 Million

This project involved completely renovating a 2,284 sqft 1850's era home in Princeton for a young family and building a 5,752 sqft addition for their parents. The renovation included demolishing the existing home's sunporch and first floor addition, framing repairs, and a complete interior update, as well as updating the exterior, performing extensive site work, replacing the mechanical systems, and adding a new septic system. The addition houses a full kitchen, a primary bedroom and bathroom, two powder rooms, a residential elevator, and a finished basement. The project was designed by Knight Architects.

We'd like to congratulate our wonderful clients and thank our project teams, design partners, subcontractors, and suppliers for contributing to the success of these projects!

The Excellence in Construction Awards

The Associated Builders and Contractors (ABC) is a national construction industry trade association representing more than 21,000 chapter members. The ABC Eastern PA Chapter represents over 600 member companies. The Excellence in Construction Awards competition is ABC's premiere annual awards program that highlights outstanding merit construction throughout the region. C. Raymond Davis & Sons has received 108 awards for quality construction since 1994.

Established in 1928, C. Raymond Davis & Sons, Inc. (CRD) is an award-winning construction management firm specializing in institutional, commercial, and high-end custom home construction. CRD is headquartered in Kimberton, PA, with branch offices in Princeton, NJ, and Bolton Landing, NY. For more information, please visit www.craymondDavis.com.
