

# SpireMag Series

# MAG888

## High Performance Magnetic Flowmeter

- *Plug and play*
- *No moving parts*
- *Requires minimum straight pipe run*
- *Rich communication outputs*
- *Standard 0.5% accuracy*
- *Totalizers for positive, negative, and net flow*
- *Separate model available for high accuracy and high performance*

The newly designed MAG888 further showcases the dependable SpireMag Series flowmeter products.

This high performance electromagnetic flowmeter provides accurate measurement for municipal water, wastewater and industrial sectors.

**MEASURE TODAY**  
**ENSURE TOMORROW**

- **MUNICIPAL WATER**
- **INDUSTRIAL LIQUID**
- **WASTEWATER**
- **IRRIGATION**

## FEATURES AND BENEFITS

Manufactured under strict standards, the MAG888 is produced to cover a broad range of crucial applications. Constructed from high grade steel, in conjunction with a weatherproof design, ensures the unit will remain both reliable and robust.

### With SPIRE METERING's MAG888, you can:

- Measure instantly after installation as the unit parameters are pre-configured in factory.
- Enjoy installation flexibility as the MAG888 requires minimal straight run piping.
- Measure clean liquids as well as mixtures of solids and liquids with conductivity as low as 5  $\mu\text{S}/\text{cm}$ .
- Reduce maintenance costs, specifically from debris/particle damage, as there are no moving components.
- Reduce response time and proactively monitor applications using 4-20mA, pulse, MODBUS, HART, and RS232/RS485.
- Minimize operational downtime with a self-diagnosing capability.
- Choose from a wide range of meter sizes, from DN15 - DN2000 (1/2" - 80") to tackle any application.

### About Spire Metering Technology

Formerly Shenitech, Spire Metering is a global leader in flow and energy management solutions. Through continuous innovation, we transform complex cutting-edge technologies into affordable, reliable solutions for accurate flow and energy measurement. Spire Metering offers water, heat, electricity and gas meters as well as AMR/AMI solutions. To find out how we can help today, please tell us about your application.
