**HAND-HELD CAPPER WITH CAP-ABILITY®**

- **MODEL P-700**
  - One-Way Drive (Application Only)
  - Standard Features:
    - Up to 40+ cappings per minute
    - Comes complete with balanced mounting suspension system to minimize operator fatigue
    - Tightening torques up to 40 Lb.- in. (4.6 N-m)
    - Chuck sizes available to handle a wide range of cap sizes and types
    - The only unit available with the exclusive Kaps-All® patented adjustable Dial-A-Torque™ clutch system
    - Ideal for both in-case capping and on-line capping
    - In stock for fast delivery

- **MODEL P-700R**
  - With Reversible Drive (Application and Removal)
  - Additional Features:
    - Up to 40+ cappings per minute
    - Comes complete with balanced mounting suspension system to minimize operator fatigue
    - Tightening torques up to 40 Lb.- in. (4.6 N-m)
    - Chuck sizes available to handle a wide range of cap sizes and types
    - The only unit available with the exclusive Kaps-All® patented adjustable Dial-A-Torque™ clutch system
    - Unlike other units on the market, a consistent torque and minimal wear on chuck inserts can be expected with the fully adjustable, exclusive torque mechanism.
    - Ideal for both in-case capping and on-line capping
    - Units come complete with balancer, chuck, clutch, clutch adjusting tool, cap driver insert, filter-regulator, lubricator and all tubings and fittings needed for immediate operation
    - Chuck and chuck insert can handle a range of cap diameters
    - Capable of tightening both screw and lug caps of all materials from 15mm diameter and up to 83mm diameter
    - Model P-700-R can be used as a de-capper to remove caps from containers and also as capper to tighten caps
    - Requires minimal floor or bench space
    - The need to rely on air flow and pressure for desired torque is eliminated
    - Both Model P-700 and Model P-700-R are suitable for hazardous location environments
    - Push to start lever and automatic torque stop feature simplifies operator use
    - In stock and available for fast delivery

HAND-HELD CAPPER WITH CAP-ABILITY®

OPTIONAL EQUIPMENT

- Vertical support system for balancer and cap driver to secure directly to table or conveyor (See photo “A”)
- Table mounted, lever-actuated capper stand (See photo “B”)
- Torque reading tool to accurately determine and adjust torque settings on adjustable “Dial-A-Torque”™ clutch systems
- Anti-torque arm (See photo “D”) eliminates operator fatigue and increases safety for long term use on pole support system “A”
- Quick clamp bottle mounting system to hold small bottles while being capped (See photo “C”)

TABLE MOUNTED, LEVER-ACTUATED CAPPER STAND

QUICK CLAMP BOTTLE MOUNTING SYSTEM TO HOLD BOTTLES WHILE BEING CAPPED
