

Managed Print

Optimizing your print with tailored strategies and solutions

A&A Office Systems' managed print services (MPS) starts with a thorough assessment of your print environment. Once we've analyzed your usage, we will help develop strategies for cost savings and efficiency, and continue to work with you through our continued relationship to find improvements.

Our MPS program can be billed by CPC (cost per click) or using what's called "seat based billing;" a flat fee based on the number of users in your organization.

23% Average Cost Savings!

Service and Supplies

Enjoy service and toner included with your MPS program with A&A. Toner will be shipped to you just as you need it so you don't have to store it onsite.

Metrics and Reviews

In addition to detailed usage reports, A&A will work with you on a regular basis to review your custom program and discover opportunities to improve.

Rules Based Printing

Implement rules to suggest or enforce guidelines such as duplex or black and white printing to save money and improve security.

Cost Savings

Through a combination of strategy, supply control, rules printing, and other factors, A&A's MPS program cuts waste and controls costs.

Take Control of Your Print With A&A Managed Print Services

Copier maintenance and print supplies can be time consuming and costly. A&A Office Systems takes the frustration out of your print with our managed print services. Our robust programs are custom tailored to meet your needs and every package includes A&A's award winning service.

Key Benefits

- ✓ Automated meter reads
- ✓ Just-in-time supply delivery
- ✓ Award winning service
- ✓ Custom tiered packages

BRONZE

Meters and supplies for networked devices

SILVER

Adds local devices, print analysis, cost accounting and rules based printing

GOLD

Adds secure release and mobile printing

PLATINUM

Our entire MPS suite at a flat, per user fee (we call it "seat based billing")

We Think Nationally and Globally

With our national partnerships, A&A's MPS programs are available throughout the US.

And, keeping the entire planet in mind, our toner cartridges are recyclable and our MPS program can help you maximize your own green initiatives.

We value local and national sustainability.
