Each Office Independently Owned and Operated

10 Reasons

You will receive 10 free trees when you join The National Arbor Day Foundation

You Should Plant Trees ... Now!

1 Trees conserve energy in the summer, and save you money. Properly planted trees can cut your air-conditioning costs by 15-35%.

2 Trees help clean the air. Trees produce the oxygen we breathe, and remove air pollution by lowering air temperature, through respiration, and by retaining particulates.

3 Trees bring songbirds close by. Birdsong will fill the air as trees provide nesting sites, food, and cover for countless species.

4 Trees around your home can increase its value by up to 15% or more. Studies of comparable houses with and without trees place a markedly higher value on those whose yards are sheltered by trees.

5 Trees help clean our rivers and streams. Trees hold the soil in place and reduce polluted runoff into our waterways.

6 Trees conserve energy in the winter. Trees can slow cold winter winds, and can cut your heating costs 10-20%.

7 Trees fight global warming. They remove carbon dioxide from the atmosphere, the major contributor to the threat of global warming.

8 Trees make your home, and your neighborhood, more beautiful. Trees mark the changing seasons, and add grace and color.
