10 Reasons

You Should Plant Trees ... Now!

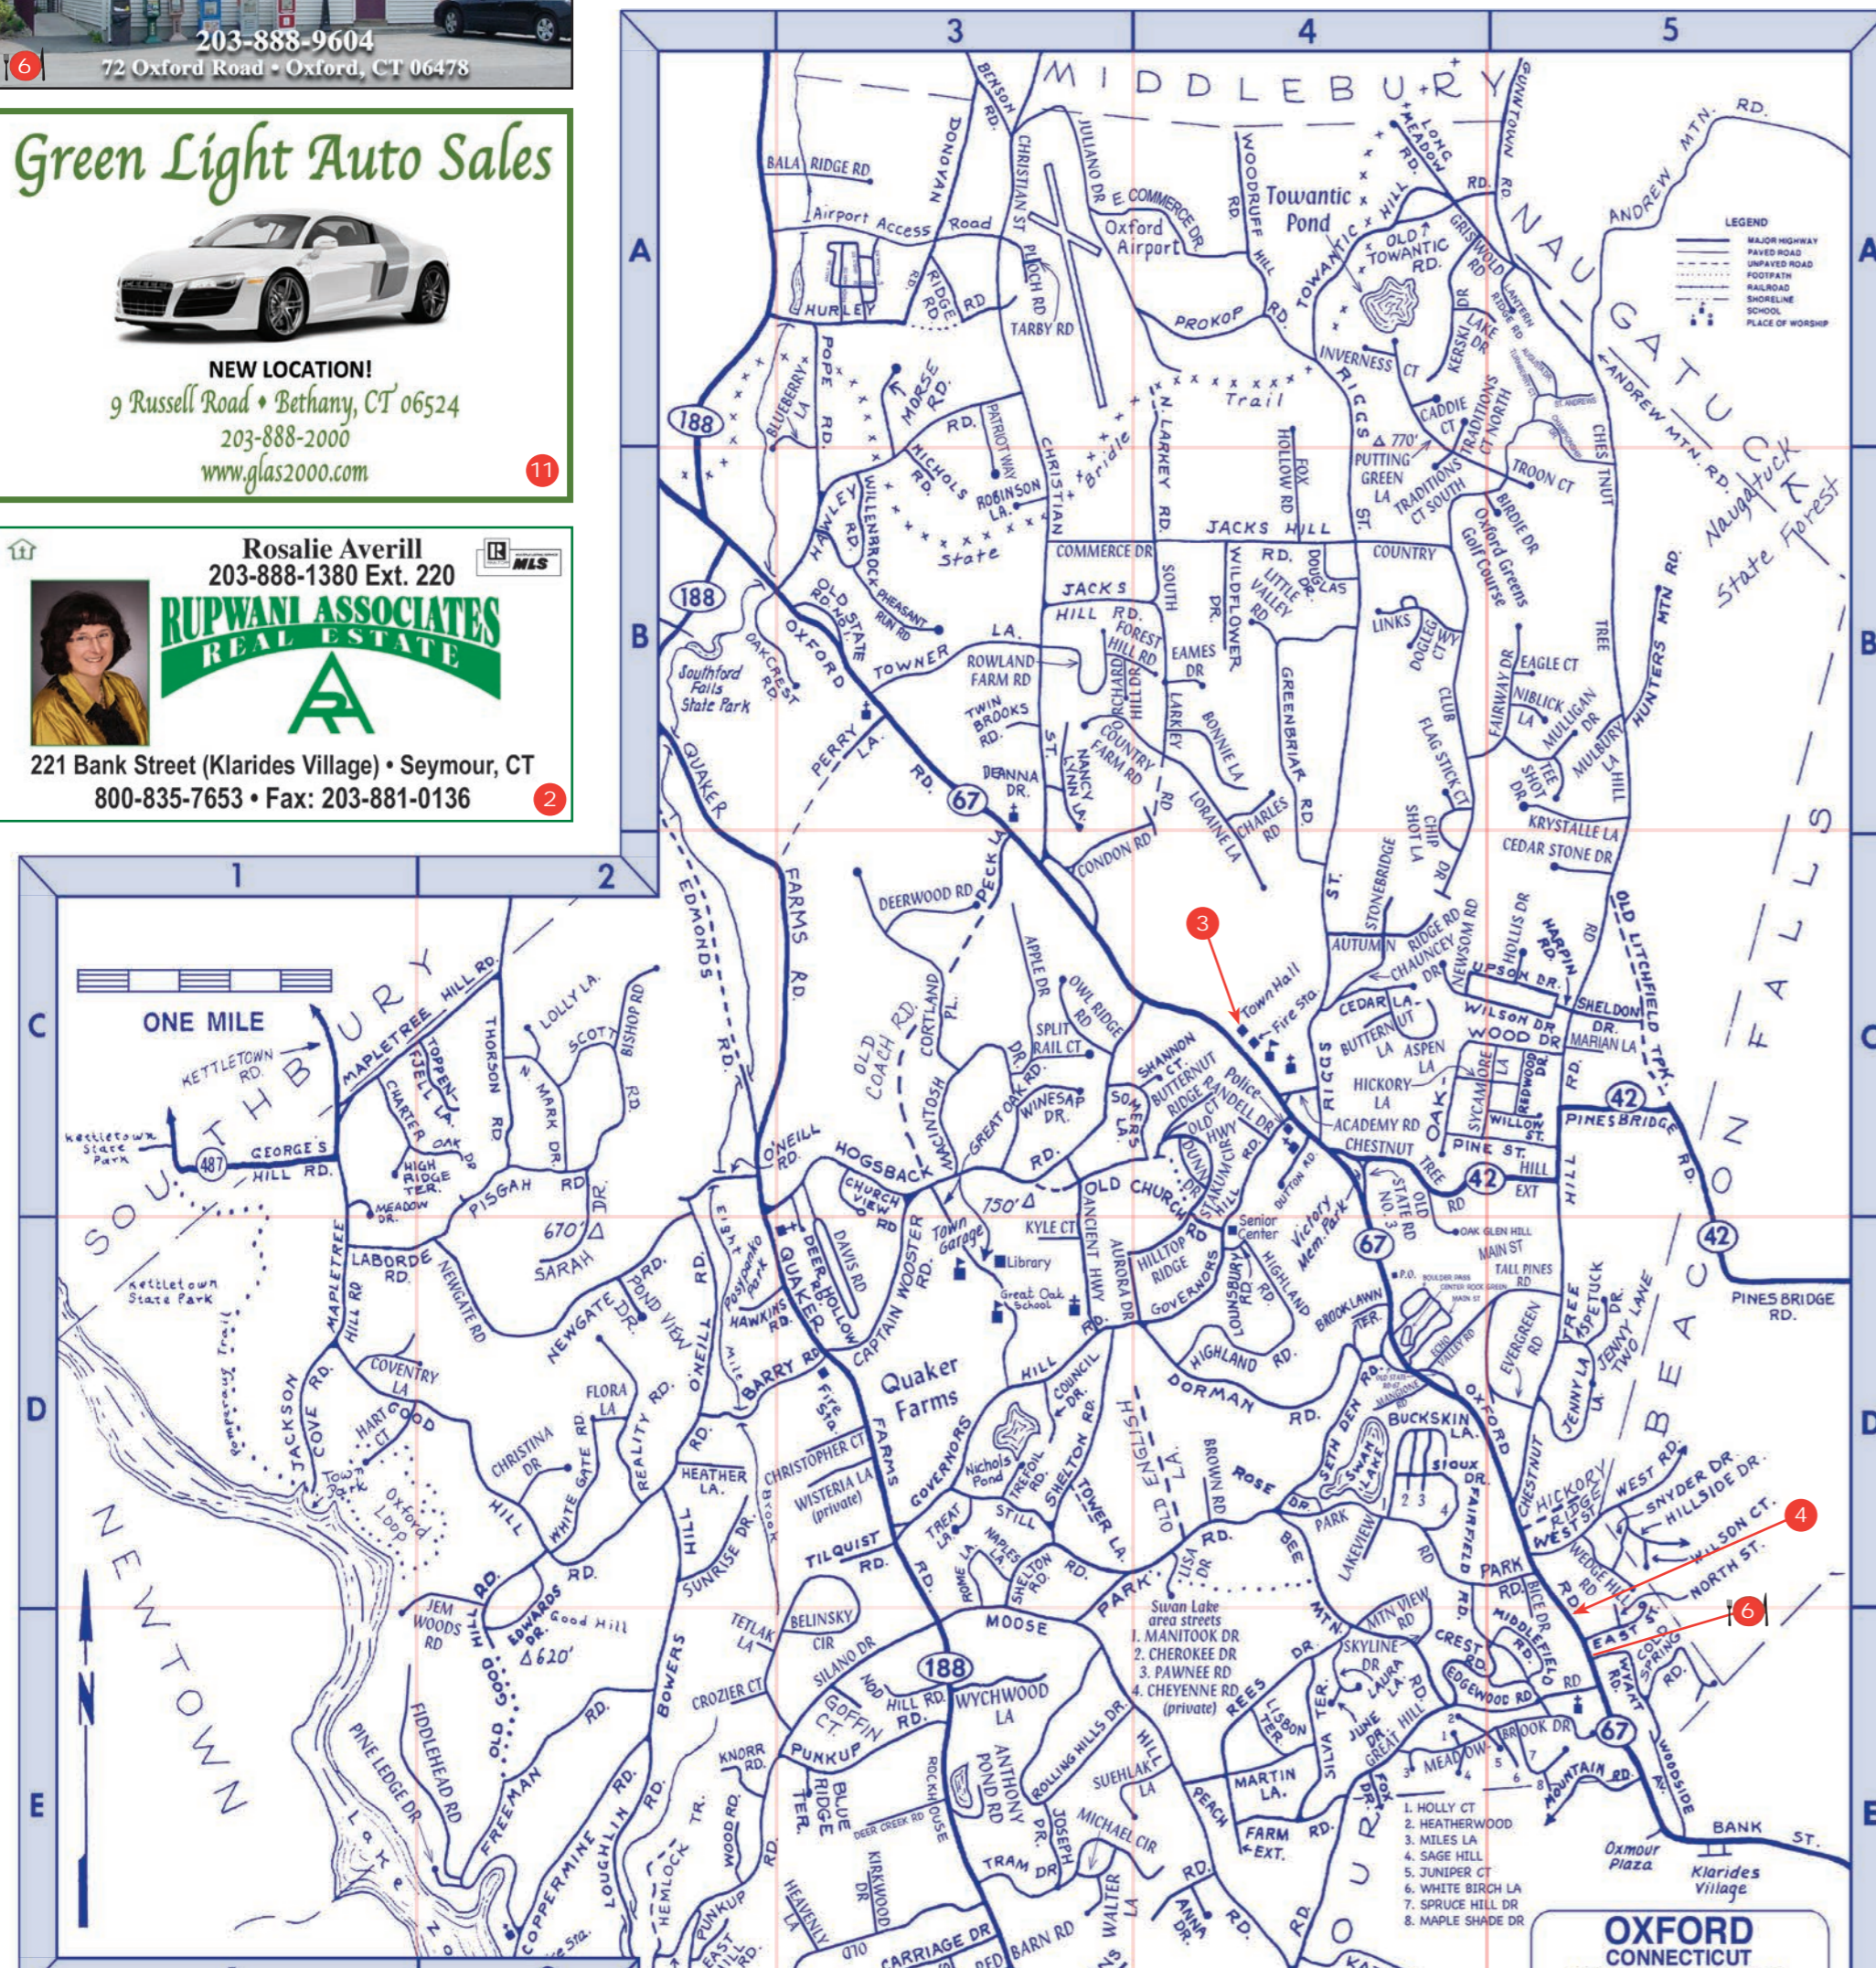

- 1 Trees conserve energy in the summer, and save you money. Properly planted trees can cut your air-conditioning costs by 15-35%.
2 Trees help clean the air. Trees provide the oxygen we breathe, and remove air pollution by lowering air temperature, through respiration, and by retaining particulates.
3 Trees bring songbirds close by. Birdsong will fill the air as trees provide nesting sites, food, and cover for countless species.
4 Trees around your home can increase its value by up to 15% or more. Studies of comparable houses with and without trees place a markedly higher value on those whose yards are sheltered by trees.
5 Trees help clean our rivers and streams. Trees hold the soil in place and reduce polluted runoff into our waterways.
6 Trees conserve energy in the winter. Trees can slow cold winter winds, and can cut your heating costs 10-20%.
7 Trees fight global warming. They remove carbon dioxide from the atmosphere, the major contributor to the threat of global warming.
8 Trees make your home, and your neighborhood, more beautiful. Trees mark the changing seasons, and add grace and color.

Office of the First Selectman Town of Oxford, CT 06478
Greetings: It is my honor to serve as Oxford's First Selectman. In many ways Oxford is the quintessential New England town. We are proud of our Yankee heritage but we are welcoming to new residents.
We enjoy our rural atmosphere but we have been very successful in attracting commercial development. In short, we are a community with many faces. It is apparent that our secret is out since we are now the fastest growing community in the state of Connecticut. Enjoy our natural beauty and one of our many fine restaurants. You may even get to see some vintage planes land at our airport. Oxford is a small town with a big heart.
